SPORT

The road from tradition to innovation has its custom pattern. Tannon transforms the best hides into designed shapes. Every Tannon product is hand crafted with authentic bovine hides. Natural imperfections of tone and texture are to be considered precious signs of the product's originality and uniqueness. The base tan is traditionally made only in wooden drums maintaining the natural touch and feel of the hide. Italian Imagination becomes Reality.

Il percorso che porta dalla tradizione all'innovazione segue un modello preciso. Tannon trasforma le pelli migliori in forme di design. Ogni prodotto Tannon è prodotto artigianalmente con autentiche pelli bovine. Le naturali imperfezioni di tono e trama vanno considerate come preziosi segni dell'originalità e unicità del prodotto. La tintura di base è tradizionalmente fatta esclusivamente in botti di legno, per mantenerne le qualità della pelle alla vista e al tatto. L'immaginazione italiana diventa realtà.
